

# Solar setup for home Bahamas

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How long does solar installation take?

Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Monitoring insures your solar panels are working properly by tracking the output of your solar system. You gain 27/4 peace of mind that your whole system is working effectively.

How do I go solar?

The first step to going solar is a site assessment. We evaluate your home or business's energy usage and utility rate to determine potential solar savings. With the initial evaluation we're able to determine payoff period and ROI. The solar systems we install typically have a payback between 4-7 years and a 18-20% return each year.
