Chad installed solar on our rig which consisted of four 365 watt panels (1460 total watts) along with six Battle Born 100 ah heated lithium batteries. We arrived Thursday and Chad started working Friday and finished up Sunday afternoon. Chad's attention to detail is evident in the quality of his installation.

And it could be done by strategic placement of solar installations around the globe. But for all that, Chad says, solar has a problem. And it is silicon. While it has been the basis for getting solar energy efficiency up to 24-25%, it must be created at very high pressure, in a slow, highly energy-intensive process.

Chad started Convert Solar in 2012 with a vision of making clean solar energy a viable option to power the
