

Stoneblock 3 Early Game Power . Question So I'm fairly new to the modded scene and have never played with Create before. Can anyone help me out with what I am supposed to do for power gen early game? Waterwheels are simply not enough and I cannot for the life of me get a steam boiler to even keep itself running let alone an ore processing setup.

Bug Report After creating a Controller for Refined Storage, the quest does not recognize it, even if clicking the &quot;Submit and Claim&quot; button in the quest book, while the block is in my inventory. ... Same, doesn't work on Stoneblock modpack version 1.0.37 It probably doesn't complete because NBT tags don't match? (the quest has no NBT tags ...

Have been trying to get this to work for a while now, Flux networks just doesn't seem to be working at all. I setup the network for RF use, put a plug on my energy cell with the side set to output, and put a point on literally anything that needs power and nothing happens it says there's 0 RF in the network.

Hi all, i recently started my stoneblock 2 journey and im kind off stuck in power generation. Currently have a Generator from Draconic Evolution and im trying to set my magmatic dynamo up, but i have no idea how to, especially since i am about to set up the ME drive quest line in the storage quests.

Ah. I stumbled upon this post this morning while thinking about how inefficient me and my mates power generation is, since we're using coils from lootbags hooked up to a machine crucible which takes energy, and cobblestone to make lava.(forgot the name so I'm describing it) To then feed into a magmatic generator, needless to say the amount of power it generates is no where near ...

Up to tier five is easy and the materials are readily available, but tier 6 requires dragons breath, and tier 7 takes dragon eggs. which without ProjectE would SUCK to make in large amounts. I ...

I saved a lot of crafting time by copying items with the projectE energy condenser. Reply reply Top 1% Rank by size . More posts you may like [r/ClashRoyale](#). [r/ClashRoyale](#). Subreddit for all things Clash Royale, the free mobile strategy game from Supercell. ... Is there an infinite water source like the sink in stoneblock 2?

The subreddit for all things related to Modded Minecraft for Minecraft Java Edition --- This subreddit was originally created for discussion around the FTB launcher and its modpacks but has since grown to encompass all aspects of modding the Java edition of Minecraft.

As you know, Bob, Stoneblock has quite a few tech mods that include some kind of item and fluid and energy transport &quot;things&quot;, whether they are called ducts, conduits, pipes, belts, cables, or whatever. What do you think is best or worst for item transport, or fluid transport, or energy transport, and why?

# Stoneblock energy storage Benin

I'm trying to autocraft with a Refined Storage Crafter and a Mechanism Elite Infusing Factory. I have all of the required components for Refined Storage set up properly, and can autocraft with various other mods. The problem I'm having is specifically with the Elite Infusing Factory where it needs redstone inserted to the purple side and iron to ...

1. Company Overview: PowerGen Renewable Energy 2. Building the Future Power System of Africa 3. Paths to Africa's Distributed Energy Future

Autocrafting, first choices are AE2 or Refined Storage. AE2: PROs: more precise control over items, spatial I/O, allows subnetworking, allows piggy-back setups, auto crafting setups ...

Hi! So I've began playing StoneBlock, and so far I'm really enjoying it and taking my time. I need, however, an energy solution, since working with a regular furnace just won't cut it. Thus, I've ...

Now that we have semi-automatic processor crafting, and we have power generation, we are finally able to set up our Refined Storage System! If you would like ...

stoneblock storage Question ... Connect storage drawer controllers, crates, colossal chests up with Xnet connectors and wires and a channel on the controller ... It might take a while but if you got 64k storage cells from the loot ...

Silky Jewel blocks from an RF tools dimension -&gt; octuple compressed sugarcane in stoneblock. I'm at nearly 1 trillion EMC from a couple hours of this ... Yep, but before I did this, I filled up a tier 7 Draconic Evolution energy storage using the rainbow generator. Up until then, I had 10 cloches and 3 9x9 automated farms pumping out emerald ...

The Basic Capacitor Bank is a block added by Ender IO. It is used to store Redstone Flux (RF); each block can store one million RF. It is a shapeless multiblock; putting a Basic Capacitor Bank next to another Basic Capacitor Bank will combine their energy storage. Within the GUI, up to four RF-using tools can be charged at the same time. The maximum RF input and output can be ...

Iron Furnaces with power generation upgrade, Netherite Furnace generates 400 rf/t and Rainbow one itself 1k rf/t. I haven't been able to setup the Rainbow Furnace setup (think its semi-bugged), but it will also generate 10k RF/t for each setup apparently - that is all 9 furnaces generating power (which is easy since its all just coal) and linked to the Rainbow furnace.

Combine with black hole controllers for large storage issues, until you can make the big drives. If you can't make black hole storage yet, use storage drawers in their stead but be careful, storage controllers-&gt;storage bus is a TPS choke point, and can cause lag if one is overly dependent on them. This goes double for Stoneblock 2.

The Energy Core is a machine added by Draconic Evolution energy storage system. It is the central part of the Energy Core multiblock which can store massive amounts of Redstone Flux ...

Go to Stoneblock r/Stoneblock. r/Stoneblock. A community I felt was needed for tips, tricks, questions, and ideas for the Stoneblock Modpack. ... If you go the Refined Storage route over AE2, you might want to employ the Storage Drawers mod's compacting drawers as a means of giving your storage system the ability to manipulate blocks/ingots ...

Connecting your ID system via Energy tunnels will allow you to wire everything to everything else. Input to draw power into the system to be stored in the batteries. Output to feed your machine. There is no capacity cap for input or output, but you are required to put an integer card in the output to go above the default RF/t. ... Stoneblock 2 ...

That's why I didn't play stoneblock 2, the first stoneblock was a real challenge, the second and this one are too easy. Who actually thought a loot bee was a good idea? ... I'm just now easing into compressed refined emc links to replace my refined storage system wherever I'm using crafting upgrades. Came at a great time too. Refined Storage ...

Just connect one of the 47 (?) slot EMC links to your storage system (via a storage bus) and teach it to use EMC for parts for the next tier power flower and it gets real easy to max it out. ...

Stoneblock 2: Energy Transfer issues EDIT: It turns out that the power has to go into the sides, it can't go into the top My pulverizer here is not getting any power, even though my Magmatic generator is producing tons, and the Energy Extraction cable above the Magmatic generator is powered as well.
