Begin your journey to solar energy with our SunPlus program, requiring no upfront payment. Consult with one of our expert solar energy consultants to assess your needs and get started on the path to clean, affordable energy without any initial financial commitment. Debt Free.

A solar battery is a device that chemically stores an electrical charge, and you can use that energy whenever you want, even if your solar panels aren't generating electricity. Although battery backup systems connected to solar panels are often referred to as solar batteries, they can store charge from any power source.

SUNPLUS LED Grow Light Sunplus was organized in 2014 that has been committed to the R& D, manufacturing and applying of qualified TOP LEDs since the year 2006, we are a professional large-scale manufacturer focus on designing and producing high performance Brand LED diodes LED grow lights from 25 watts to 1500 watts.

Typical products of Sunplus include photovoltaic inverters, energy storage inverters, lithium battery packs,
