Who is sunwoda energy?

With the principle of "technology oriented, quality first and service oriented", Sunwoda Energy dedicates to develop the new field of energy storage business, and practice the "dual carbon" policy, aiming to become the industry's first-class energy storage product and integrated solution service provider.

Is sunwoda energy launching a high-capacity liquid cooling energy storage system?

Sunwoda Energy today announced the official launch of its high-capacity liquid cooling energy storage system named NoahX 2.0 at RE+2023. The new product marks a significant leap forward in system energy, cycle life, smart management, and safety, solidifying the company's position at the forefront of the energy storage industry. Extended Lifespan

Is Sunwoda a Chinese company?

Sunwoda is a Chinese company that was founded in 2008 and listed on the ChiNext stock market, China's Nasdaq-style board for growth enterprises, in April 2011. Its main business is consumer batteries, but its power battery business has been growing rapidly in recent years.

How many countries does sunwoda energy serve?

Sunwoda Energy's energy storage systems have served customers in nearly 100 countries and regions.

What is sunwoda LBCs?

All-in-one design, rapid installation and deployment. Sunwoda LBCS (liquid -cooling Battery Container System) is a versatile industrial battery system with liquid cooling shipped in a 20-foot container. The standard unit is prefabricated with a modular battery cluster, fire suppression system, water cooling unit, and local monitoring.

What is sunwoda residential ESS?

Expanded from 5kWh to 60kWh, Sunwoda Residential ESS can spare you any troubles in home energy storage, from residential self-generation, peak-load shifting, to emergency backup power. The voltage ranges from 48V to 512V, covering all types of communication base stations and data center backup scenarios.

Sunwoda battery cluster modular unit consists of a standard rack-based battery module (battery pack) and a comprehensive multi-level battery management system (BMS). The team behind LBCS is ready to help you with professional integration support in terms of new or existing solar power, wind power, thermal power, and more.
