What is Aurora solar?

We help power tens of thousands of solar projects every week towards our goal of making solar accessible for everyone. Aurora is the solar industry's leading software platform for PV sales and design, with over 20M+ projects designed in our software. #AuroraSolar #HelioScope

What makes Auroras a great solar company?

Whether partnering with customers to grow their businesses or testing computer vision models, Auroras are united by the drive to create a future of solar for all. We work every day to innovate the platform trusted most by solar providers around the world. Advancing the solar industry brings the future closer, and that work is powered by you.

Why should you choose Aurora solar?

Our solar platform transforms the process of designing, selling, and delivering projects. From the first impression to project installation, with Aurora, you can provide a personalized solar customer experience that is uncomplicated. Let's deliver a new energy experience, one with the simplicity and predictability of a sunrise.

What is Aurora & how does it work?

Aurora makes it smoother for everyone to switch to solar energy--by transforming the way projects are designed, sold, and delivered. Discover what makes the Aurora platform the most accurate, profitable way to deliver every stage of the solar product lifecycle.

Who validates Aurora solar's performance simulation engine?

Aurora Solar's performance simulation engine is validated by the National Renewable Energy Laboratory. Aurora Solar's remote shading accuracy is validated by the National Renewable Energy Laboratory (NREL). Aurora is awarded \$400,000 from the U.S. Department of Energy's SunShot Incubator Program, Technology to Market, Incubator 10.

Who are Aurora users?

Our goal is to empower you with the essential knowledge and tools to make the most of Aurora from day one. We recognize three primary types of users: Aurora Admins, Sales, and Designers and the structure of your company will determine which of these roles you align with most.

Hemos elaborado esta lista de tareas de inicio rápido para usuarios de Diseño en el orden en que recomendamos completarlas para ayudarle a empezar a diseñar en Aurora lo antes posible.

A milestone is a significant moment in a solar project worth memorializing. Aurora now allows you to mark a design with a milestone, allowing you to 1) quickly understand the progress of a project 2) decide which design to open and edit and 3) save a permanent, secure source of truth for what the design looked like at that

Our Trust Center focuses on security and privacy standards along with resources, controls, and FAQs to help customers understand how seriously we take security at ...

It's no secret: 2023 was a challenging year for the U.S. residential solar industry. While installs kept growing, and installed capacity reached new highs, new roadblocks made this one of the more challenging years in recent memory. While we may be in a dip of the ride, we can see the ascent ahead of us. [...]

Revolutionizing Large-Scale C& I Solar Design with Cutting-Edge AI Integration. August 27, 2024 - SAN FRANCISCO - Aurora Solar, the leading global platform for solar sales and design, today announced it will launch HelioScope Similar ...

Users can model system designs for adding storage and/or additional solar panels to existing PV systems within Design Mode. From there, they can present the designs within Sales Mode.

To complete this tutorial, you will need: your Aurora tenant to be on a Business plan, your Aurora tenant to use the current API version,; your Aurora bearer token and tenant_id that you or any Administrator for your Aurora tenant can retrieve from the API Settings; an IdP that supports the OpenID Connect protocol (e.g. Salesforce, Okta, Duo Security); an app created for Aurora in ...

One of the first steps before creating a design and proposal is to enter the homeowners' consumption information. There are multiple ways to enter consumption information in Aurora, and inputting it in one place will automatically populate it in the others.

Aurora offers three special pricing plans: Build, Grow, and Scale. Here is what is included: Plan Features. Sales Mode and Web Proposal - empower your sales teams with everything they need to close with confidence.; Design Mode - operate within a specialized CAD environment to create high fidelity solar designs.; HD Imagery - access to a high-definition sources of satellite ...

Are the savings on your projects coming out unexpectedly low? Here are a few settings you can check: 1. Discount Rate. If your customer is paying cash for their PV system, then the higher Discount Rate you are using, the lower the Lifetime Savings value in Sales Mode. Going to the financing settings page and changing this to a lower value will likely increase the Lifetime ...

Contract Manager ist für alle privaten Solarunternehmen in den USA im Rahmen eines Custom Account Plans verfügbar. Wenn Sie daran interessiert sind, Contract Manager zu Ihrem individuellen Aurora-Kontenplan hinzuzufügen, wenden Sie sich bitte an support@aurorasolar . Konfigurieren Sie Contract Manager in Ihrem Aurora-Konto:

El acceso solar es una forma popular de contabilizar el sombreado en los sistemas fotovoltaicos solares. Tradicionalmente, estas mediciones de la sombra se realizan in situ utilizando equipos especializados, pero un software moderno como Aurora permite a los usuarios generar lecturas de la sombra desde su oficina, sin tener que desplazarse al lugar.
