TAE Power Solutions, a new power management subsidiary from fusion energy leader TAE Technologies, has announced the opening of a new UK facility which will enable the company to operate a new battery prototype-and-test facility, on its path to manufacturing modular battery packs for all forms of e-mobility including cars, trucks, buses, and rail.

TAE Power Solutions is Born of Fusion. The breakthrough technology that was invented to collect and store megawatts of power and deliver precise sinusoidal waves to TAE's fusion research reactors has now been adapted to deliver lower cost, higher performing energy storage and power delivery systems for the next generation of electric vehicles, large and small.

TAE Power Solutions is creating advanced technologies that are designed to deliver faster charging, stronger performance, farther range, and longer battery life for e-mobility and...
