The BioLite SolarHome 1025 has a larger solar panel than the SolarHome 625, for the same battery and light output. The larger panel ensures the battery is fully charged even during cloudy days, storing enough energy to power the three hanging lights, including one motion-activated light, an FM radio, MP3 player, and tw

The new Biolite SolarHome 620 is a Solar station for small scale, emergency preparation, comfort camping, van life or small house or cabin electronics kit. It includes a radio, MP3 (do people still refer to them as MP3's) player, USB device charger, living individual switched daisy chained lighting, all powered by a small solar panel, and on-board battery. BioLite is a ...

We have a BioLite SolarHome 620 kit that we like as a backup light source for the occasional power failure or for camping. ... your own, all prices very approx, \$100 100w panel, \$20 charge controller, \$40 inverter, and \$100 battery) - for that, you would get **way** more power, and be able to upgrade, etc. More importantly than those things ...

The "620" in the name, SolarHome 620, comes from the 6-watt solar panel and the 20-watt-hour battery bank. In even average sunlight conditions, the SolarHome 620 can be used moderately at night and charged during the day without a break in power. Why is the Biolite SolarHome Useful? Energy efficiency is an important topic.

The new BioLite SolarHome 1550 brings a larger panel and twice the battery size of the SolarHome 625 to the off-grid home or business, with brighter lights and improved runtime compared to the entry-level home system. The system's three hanging lights provide overhead multi-room lighting, each with its own control swit
