What is Jamaica's energy mix?

Presently Jamaica's energy mix is comprised of 14% renewable energy on the public grid. Its electrical demand peaks at 660MW and its electricity prices are comparable relative to the rest of the Caribbean. Antigua and Barbuda have a high solar potential and set a renewable energy mix target of 15% by 2030.

What is Terra Solar?

Terra Solar is a company that installs tier 1 commercial grade solar panels. This results in more production for your house and more savings for you. At Terra Solar, we are focused on delighting our customers.

Is Terra Solar a good company to work with?

According to Chance Olson (2023-02-23), Terra Solar is an awesome company to work with. They were fast with communication and transparent during the entire process. He felt that they cared about him and helped him through all the steps including permitting and installation.

Meanwhile, developer Terra-Gen's Edwards & Sanborn solar-plus-storage project in California, US, is thought to feature the world's biggest lithium-ion (Li-ion) BESS facility to date at 3 ...

Terra Solar is an exceptional solar company that I would highly recommend to anyone looking to make the switch to renewable energy. From the initial consultation to the final installation, Terra Solar provided excellent customer service and attention to detail.
