The sun provides more than enough energy in just one hour to supply our planet's energy needs for an entire year. Your home can capture this free, abundant energy source through rooftop solar tiles, turning sunlight into electricity for immediate use or storage in a Powerwall battery.

When Tesla bought solar panel manufacturing giant Solar City in August - for the cool sum of \$2.6 billion - the benefits were clear. Tesla, who had been working on electric vehicles and the house and business-powering Powerwall and Powerpack needed the solar panels that would keep their batteries charged.

development of the power system, and strengthening public financial management in Sao Tome and Principe.4 "Sao Tome and Principe receive high levels of solar irradiation of 4.9 kWh/m2/day and a specific yield of 3.5 kWh/kWp/day indicating strong technical feasibility for solar in the country.5 "As of 2020, the Government of Sao Tome and ...
