gTET signs new joint venture entity TORC Clean Energy pl whose charter is to commercialise patented low temp thermal battery and install and operate clean energy power stations under PPA's

Clean energy technologies are in many ways very different from one another, but none directly emit CO<sub>2</sub>. "A key word there is directly," says Jennifer Morris, a principal research scientist at MIT's Joint Program on the Science and Policy of Global Change and the MIT Energy Initiative. Even if they do not produce emissions during ...
