Who owns total Eren?

The Total Eren teams will be fully integrated within TotalEnergies' Renewables business unit. The deal follows the strategic agreement signed between TotalEnergies and Total Eren in 2017, which granted TotalEnergies the right to acquire all of Total Eren (formerly EREN RE) after a five-year period.

Where is total Eren located?

Total Eren's assets span the African, Latin American and Asia-Pacific regions. Just last week, the company said its hydrogen subsidiary TEH2 partnered with Finland-based Aliceco Energy to develop the Vanadis low-carbon electrofuels project in Kokkola, Finland. Plans are to integrate Total Eren's teams into TotalEnergies' renewables business unit.

Will total Eren integrate with totalenergies?

Plans are to integrate Total Eren's teams into TotalEnergies' renewables business unit. The integration should result in an increase in TotalEnergies' integrated power net operating income of about \$177 million (EUR160 million) and an increase of about \$442 million (EUR400 million) to the company's cash flow from operations in 2024, the company said.

How much is total Eren worth?

As part of this transaction, Total Eren is valued at an Enterprise Value of EUR3.8 billion based on an attractive EBITDA multiple negotiated in the initial strategic agreement signed in 2017. The acquisition of 70,8% represents a net investment of around EUR1.5 billion for TotalEnergies.

Why should you join total Eren?

Today, we are welcoming Total Eren's experienced teams, who will continue their remarkable work with the added resources of a bigger company." P&#226;ris Mouratoglou, Chairman of Total Eren, stated: "With Total Eren, we have successfully created a best-in-class renewable energy player.

Who is Eren Groupe?

Founded more than 20 years ago by P&#226;ris Mouratoglou, EREN Groupe is a player dedicated to the preservation of natural resources. It remains the pioneer of renewable energies in Europe and today holds, through its subsidiary Total Eren, nearly 3.5 GWs of renewable energy assets in operation or under construction across the five continents.

With this in mind, they created a favourable economic environment for investments and have directly supported Total Eren's project. All in all, Total Eren estimates that this project will create more than 300 new constructing jobs and 15 permanent positions. The solar plant could also be the first of many projects of this kind in the country.
