"The best combination of energy source is a nuclear baseload, supported mostly by wind power," he said. Mohsin Seedat of PWC said that nuclear could provide South Africa with baseload power in an "environmentally sensitive" way. "All indications are that South Africa is ready for the next stage of economic growth; that is why we need nuclear power.

South Africa's energy sector is still shaped by the country's apartheid history and by post-apartheid's political, social, and economic forces (Baker et al., 2014; Marquard, 2006). Given South Africa's high coal endowment, the resource supported energy intensive economic growth by fueling the national energy-sector and other industries (e.g ...
