

Could a gas power plant be redesigned to supply Namibia & South Africa?

The idea is to revamp a long-stalled project to pipe gas to an onshore gas-fired power plant to supply Namibia, then neighbouring South Africa and the wider region. Initially designed to handle 1.3 tcf from Namibia's smaller Kudu field, the power plant project and related gas infrastructure would need significant upscaling.

What is happening in Namibia's energy sector?

Namibia's energy sector has seen rapid development in a short period of time owing to five recent major oil and gas discoveries, which include the Venus-1X, Graff-1X, Jonker-1X, La Rona-1X, and Lesedi-1X exploration projects.

What is the invest in Namibia energies Country Spotlight?

The Invest in Namibia Energies country spotlight represents just one of many spotlights set to take place during this year's edition of AEW. #AEW2023 takes place this week in Cape Town under a mandate to make energy poverty history by 2030.

Which oil companies will lead Namibia's gas development plan?

Namibia's government has started talks with Shell (SHEL.L), Total (TTEF.PA), Galp (GALP.LS) and Norway's BW Energy (BWE.OL), and wants Namibia's national oil company Namcor to lead the gas development plan. For the companies, the problem is the additional work could delay oil production into the 2030s, making it harder to monetise.

Will Namibia get first oil by 2026?

After initially hoping for first oil by 2026, Namibia's government is working with operators to agree on a single plan with common infrastructure for the 8.7 trillion cubic feet (tcf) of unexpected gas.
