In 2021, French Guiana's electricity consumption demonstrated a strong emphasis on low-carbon sources, with about 70% of its electricity generated from clean energy. This includes more than half of its electricity derived from hydropower, which makes up the backbone of the region's low-carbon generation. Solar energy also supplies a modest share of nearly 6%, and biofuels ...

The CEOG power project is backed by a 25-year power purchase agreement (PPA) signed with the French utility EDF. It will be connected to French Guiana's electricity grid through EDF's substation in Saint-Laurent-du-Maroni. The facility will provide reliable and clean electricity to power up to 10,000 French Guiana households. It will meet ...
