What is Türkiye's energy strategy?

The versatile structure of Türkiye's energy strategy and its energy import dependency brings international relations into prominence in this field. One of the main goals of Türkiye's energy strategy is to diversify routes and resources to strengthen its energy supply security.

What is the international dimension of Türkiye's energy strategy?

The fundamental elements that constitute the international dimension of Türkiye's energy strategy are:
1. To ensure the diversification of routes and resources in the supply of oil and natural gas, taking into account the increasing demand and import dependency, 2. To contribute to regional and global energy security, 3.

What is Türkiye's energy policy?

Türkiye's primary objective for the energy sector, as presented in the 12th Development Plan, is to maximize self-sufficiency by using domestic and renewable energy resources, based on the 2053 net zero emission goal, along with uninterrupted, high-quality, sustainable and secure supply of energy at affordable costs.

What type of energy does Türkiye generate?

Approximately 56% of Türkiye's electric power generation capacity consists of renewable energy, including hydroelectric, wind, solar, geothermal, and biomass power plants, making Türkiye the fifth-largest generator of renewable energy in Europe and the 11th largest in the world.

How much power does Türkiye generate?

Türkiye generated 118 TWh of power from coal, ahead of Poland's 97 TWh and almost reaching Germany's 121 TWh. In 2013, 25% of power was from coal in both Türkiye and the EU. In 2023, this was down to a record low 12% in the EU, but reached a record high 36% in Türkiye. The rise in coal-fired electricity generation was driven by imported coal.

Is Türkiye reshaping its energy and climate policies?

At such a critical time when Türkiye is reshaping its energy and climate policies in line with the Paris Agreement goals, this paper presents a thorough analysis of the impacts of Türkiye's power system transformation on society, economy and the environment based on a bottom-up assessment of clean energy technology deployment.

During the SEDEC Türkiye 2022 Fair, Defence Turkey Magazine created an opportunity to have an exclusive interview with Steve ZIFF, NOVA Power Solutions President and CEO, and Seyman BAYRAMOGLU, NOVA Power Solutions Business Development Manager for the EMEA region on NOVA Power Systems' performance during the COVID era, their recently ...
