What is Türkiye's energy strategy?

The versatile structure of Türkiye's energy strategy and its energy import dependency brings international relations into prominence in this field. One of the main goals of Türkiye's energy strategy is to diversify routes and resources to strengthen its energy supply security.

What is the international dimension of Türkiye's energy strategy?

The fundamental elements that constitute the international dimension of Türkiye's energy strategy are:
1. To ensure the diversification of routes and resources in the supply of oil and natural gas, taking into account the increasing demand and import dependency, 2. To contribute to regional and global energy security, 3.
