

Ukraine aggrego container

Why choose industrial energy storage systems with Aggreko?

Electrical energy storage that's mobile and easy to transport to your site as and when you need it allows us to provide your business with innovative, reliable power - fast. No CAPEX - saving you money in the long run, boosting your returns

Where is Aggreko based?

The units, the size of a shipping container, are transported around the world from its assembly plant in Dumbarton. Aggreko relies increasingly on use of data as its operations become more complex, with 100 staff employed at a data handling centre in Glasgow.

How did Aggreko perform in 2019?

Aggreko's financial results for 2019 were published on Tuesday, with revenue falling 8%, and pre-tax profit rising by 9% to £199m. The figures look better when the peak of activity around the Winter Olympic Games in 2018 is taken into account - with revenue falling 1% to £1.6bn, and pre-tax profit up 13%.

Solve your power generation challenges with our 500 kVA container diesel generator hire service - whether you're facing an emergency outage or a planned project. For flexible, portable power, a 500 kVA container generator will get the job done. For ...
