

Proper storage is essential for pH and ORP electrodes. This Hanna HI 70300S pH Electrode Storage Solution is specially formulated to keep the glass hydrated, the junction clear and the microbial growth to a minimum while in storage. The bottle is tightly sealed to ensure lasting freshness. Features

After cleaning your electrode with one of our wide range of cleaning solutions, rinse with tap water, then soak the electrode in Hanna specially formulated Storage Solution (HI-70300 or HI-80300) before taking measurements. pH ...
