Additionally, a 3-gigawatt power cable project that will connect the green energy sites in Western Sahara to central Morocco has drawn interest from private investors, including those from France. The energy expansion comes as Morocco prepares to meet increased electricity demand ahead of the 2030 FIFA World Cup, which it will co-host.

The company said that as part of the Moroccan Green Hydrogen Offer published in March 2024, "MGH Energy Maroc is leading the ambitious Janassim project to develop, build and operate a plant to produce ...

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy, much of it headed for Europe. Morocco insists that the territory is part of Morocco.

At COP22, beware of what you read about Morocco's renewable energy efforts. An increasing part of the projects take place in the occupied territory of Western Sahara and is used for mineral plunder, new WSRW report documents.

“Morocco to Double West Sahara Green Power Output for World Cup”, 16 October 2024 The government has set a 2027 deadline to build 1.4 gigawatts of new wind and solar capacity in the region... The projects are likely to cost about 21 billion dirhams (\$2.1 billion) and will be led by local and foreign private investors, according to the official...

Green colonialism and occupation in Western Sahara. While some of the projects in Morocco, like the Ouarzazate Solar Plant and Noor Midelt, qualify as "green grabbing", the appropriation of land and resources for purportedly environmental ends, similar renewable (solar and wind) projects taking place in Western Sahara's occupied ...

On 4 October, the Court of Justice of the European Union (CJEU) handed another historic win to the Sahrawi national liberation movement, known as Polisario Front, in its struggle to end Morocco's occupation of Western Sahara. The court blocked efforts by the European Commission to include the territory in the European Union's trade liberalisation and ...

Supporting Moroccan sovereignty over the Western Sahara has become standard practice in international

Western Sahara campeador green energy

circles, but London has yet to take this step, although it would potentially unlock substantial benefits for the UK, with an eye towards advancing renewable energy relationships, and building robust trade agreements in a challenging ...

The conflict in Western Sahara has been unresolved for fifty years. While Morocco is positioning itself as a pioneer in green energy, climate change is exacerbating the situation for the people in the Sahrawi refugee camps. To ensure they are not forgotten, the young activist Fatma Moulay is working tirelessly for justice. Sand and...
