It's is the most viable substitute to a loud gas or diesel powered generator. Plus, AIMS Power can also ship highly productive solar panels, which are available in various wattage capacities, to Malawi. So you can also have an environmentally-friendly substitute to these harmful and annoying fossil-fuel powered generators.

MALAWI . Malawi is a landlocked country in southeastern Africa, with a rapidly growing population and an interesting energy supply. Although over 70% of Malawi's electricity comes from hydropower, just 12% of the population had access to electricity in 2018. So, if it is to meet its goal of achieving 100% electrification by 2030, Malawi needs even more power -- and from more ...

In 2017 only 11% of the population in Malawi was electrified, one of the lowest energy access rates in the world. As one of the poorest countries in sub-Saharan Africa, Malawi was overlooked and underserved with solar lighting and charging solutions, highlighting a paradox emergent in the world of solar: in an industry dedicated to reaching customers most in need of off-grid energy ...
