

Wind turbine generator for home Faroe Islands

Are there alternative energy sources in the Faroe Islands?

Increase in the oil price as well as environmental concerns have spurred the use of alternative renewable energy sources. In the Faroe Islands the readily available wind energy is an obvious source for space heating.

Could a tidal kite turbine power the Faroe Islands?

According to The Next Web, the company intends to partner with a local Faroe Islands utility company to construct a 120MW system comprising around 100 tidal kite turbines. If successful, such a project could provide as much as 40-percent of the island archipelago's entire electricity needs.

Can Faroese space heating be converted to sustainable wind power?

The technology tested in this project has the potential to convert the bulk of Faroese space heating from current oil burners to sustainable wind power. The amount of wind penetration will depend on size of heat storages and backup systems will be needed during long low or no wind periods.

Does Faroe Islands have a space heating microgrid?

Faroe Islands Wind-Powered Space Heating Microgrid Using Self-Excited 220 kW Induction Generator.

How much energy can a kite turbine generate?

Dubbed the Dragon 4, this kite turbine system can generate 100kW of energy, and at just 13 x 16 x 9ft, can fit inside a standard shipping container for easy transport. Shopping for, well, anyone?

Can Enercon rewind a wind turbine generator?

There is no company in the world which has successfully rewound and improved the life cycle of an Enercon E44 wind turbine generator. Our proprietary processes allow for optimal efficiency, in what was to be a very complex rewind. The turbine was inspected and safely dismantled to be transported to our facility in the UK for thorough analysis.
