With WonKwang S& T's abundant construction technology know-how, which has grown steadily based on trust and honesty, we will do our best to become a reliable business partner that you can trust by providing a total PV solution system capable of one-stop EPC from the most efficient and optimized solar system design, to development licensing, responsible construction, and ...

Wonkwang S& T Co., Ltd. is a company specializing in solar power generation devices designated as excellent procurement products. It has many certifications such as SOC technology market innovation new technology, LH new technology certification, and K mark.

WonKwang S& T Co., Ltd. specialized in End-of-life(Eol) photovoltaic(PV) module recycling with background of PV EPC business. With PV EPC background WonKwang S& T was able to become one of leaders for Eol PV module recycling industry in South Korea. We believes our technology and know how will be a great asset for expansion in US market.

WonKwang S& T was designated as a company specializing in the installation and A/S of new and renewable energy facilities which are certified by the New and Renewable Energy Center of the Korea Energy Agency in recognition of its technological prowess and competitiveness in installation and construction.

Wonkwang S& T" uses the domestic top level solar monitoring system developed by itself, so that it can quickly maintain and repair the system through accurate accident diagnosis and recognition. The photovoltaic monitoring collection device transmits the data collected from the inverter to the web server, and the user can check the power ...
