A few oddball notes on storage, it's not a mystical shifting thing. When something is added to storage, it gets added to a specific container. If you overbuild your storage by a lot, and later go to remove un-needed storage modules, the items in those storage modules go bye bye.

After completing the main quest, and capturing both transports. I gathered up as much pro as possible. Managed to build a storage facility at 2 of my stations and transferred the cargo there.
