

Zenaji battery Tonga

Are zenaji batteries safe?

Our battery range is inherently safe with NO thermal runaway, or fires & you can use all 100% depth of discharge. If you are looking for a rechargeable battery, we have you covered. Zenaji supplies a highly durable and efficient Australian-made Eternity Battery range. With a long shelf life, the LTO battery can last for potentially 50 years.

Who makes zenaji batteries?

Zenaji, founded in 2016, is an Australian-owned company with a specialisation in the development and production of Lithium Titanate (LTO) batteries. Their flagship product, the AEON battery solution, is manufactured and assembled at their plant in Mentone, Victoria.

How long can a zenaji battery last?

Zenaji's market leading battery longevity makes it capable of delivering over 22,000 cycles (within warranty). With low degradation and high resistance to higher temperature ranges, our battery energy storage system offers everything you expect from a reliable energy storage source.

What is the capacity of zenaji Aeon battery?

The Zenaji AEON battery has a nominal capacity of 1.93 kWh based on lithium titanate technology based on information from their datasheet. With a Depth of Discharge (DoD) of 100% ensures that the full capacity of the battery is utilised and puts them ahead of their competitors. At 36 kg it's a fairly portable battery module.

Who is zenaji Australia?

For several years our team have been researching and designing battery solutions. In 2017 we started Zenaji Australia Pty Ltd to manufacture and distribute our latest product, the Zenaji Aeon Battery. We continue to research and develop the very best battery solutions for the domestic, commercial and utility sectors.

Why should you buy a zenaji Aeon battery?

The Zenaji Aeon Battery boasts the highest battery cycle life on the market. Your battery will be an investment adding value to your home. The Zenaji Aeon Battery provides a market leading 20 year product warranty. A wide temperature tolerance means you can rest assured the Zenaji Aeon Battery will be operating in even the most extreme climates.

Charles van Dongen (Charlie) holds a battery management board developed in-house at Zenaji for use in the Aeon Battery. Oi: Tell me about the origin of the battery technology. Charlie: It began many moons ago back in the late 80s. I actually started a company which manufactured and designed DC to AC sine wave inverters but I was way too early.

By working closely with LTO battery manufacturers over the last three years, Zenaji managed to strike the

Zenaji battery Tonga

perfect balance of high energy density and reduced costs. The result, the Zenaji Battery range, capable of lasting ...

The Zenaji Aeon batteries are as easy to install as any battery system. User-friendly 2m long fly leads makes it a breeze to connect, along with a predesigned and spaced eight battery wall mount bracket kit. The Zenaji Aeon Self-Managed battery requires minimal programming and we have provided the "how to" document for all compatible inverters.

We are a renewable energy supplier currently concentrating on the Zenaji Aeon Batteries. The battery chemistry is Lithium Titanate (LTO), and is the safest and most cost-effective in Australia. The above install in NSW was completed in December 2019 and has performed perfectly ever since. The clients no longer have power bills and don't ...

What is the connection between buying a new car and installing 19.3kW of PV panels, and a almost 10kWh of battery storage on being off grid? It depends. For more than 10 years I have intermittently looked at the ...
